He watches it every day and he never gets tired of watching the same episodes over and over again. He has the entire DVD collection, and several books. Now he is happy to add this book to his collection as well. It is packed with a lot of information so he should learn even more stuff he didn't know before. Like someone else mentioned, the photos inside the book aren't the best quality, but my husband is more interested in the trivia and that sort of thing anyway.
