From Hal Leonard : The Keyboardist's Picture Chord Encyclopedia before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Keyboardist's Picture Chord Encyclopedia:

3 of 3 people found the following review helpful. EZ readBy Grey GooseIt Doesn't have the fingering but very clear4 of 4 people found the following review helpful. Limited ApplicationBy CustomerDoes not include both left AND right hand chords, if you are looking for a single chord book for all your needs this is not it.13 of 13 people found the following review helpful. Great book for keyboardistBy Jacqueline KelleyI absolutely love this book. It's a great way to learn nice full chords. I lost my old one and had to order another one because it was so beneficial. I've used this book for 5 years. I recommend this book highly.

(Music Sales America). Every chord you'll ever need to play shown clearly in diagrams and notation. Special selection

on inversions, substitutions, chord voicings and progressions.

From the Back Cover Here is the most complete chord book for the keyboard ever published. Every chord is shown in standard musical notation, accompanied by clear, concise keyboard diagrams. No matter what kind of music you play- rock, jazz, blues, country, or pop- you will find both the usual and unusual chords to any song or tune you will ever want to play.
