First of all, I love the kitchen ninja idea - in my kitchen, a Ninja is an as-seen-on-TV food processor. When the book led straight in with sauces, I was already enchanted. I consider myself a bit of a foodie, and I adore sauces! There are SO many useful recipes in here, and I haven't tried one yet that wasn't delicious. Great stuff! I am now a kitchen ninjette thanks to you!1 of 1 people found the following review helpful. Not about using my Ninja blender. Recipes are simple

DisappointedBy alona throenerGiven the name, I expected to get a cookbook designed for my Ninja Processing unit.
