Denis delivers a well written book with a practical step by step guide. Just like the author, the book adds value to those who read and practice it - going from small wins to large accomplishments. I found the writing to be simple and told in a memorable story-like fashion. This is highly recommended to any organization, any person, any team desiring accomplishment and achieving success through the steps of leadership. The book's practicality is relevant in today's public school education system, religious organizations, and corporate board rooms. Even the most successful can use reminders and tips of what sustained leadership can bring.

The Leadership GPS is a book I wish I had read earlier in my career. It guides you through Brian's first opportunity to lead a team and the importance of sharing what he's learned with those around him. How Denis organizes and delivers this step-by-step guide to leadership and mentoring, has helped me rethink my role within my organization and influencing those around me. I'm glad I picked it up!

The book's story-telling style reminded me a little of The One Minute Manager. I found it enlightening as well as enjoyable. Hope of learning to lead in addition to supervising and managing is what this book inspired in me. Now on to application! Thank you, Sir!

The Leadership GPS uses the inspiring story of Brian Alden in a turn-by-turn guide to becoming a successful leader. A member of the Millennial Generation, Brian is highly educated and wants to change the world, but when he finds himself in his first leadership role, he realizes he is short on experience. The head of his division is retiring and his manager is disinterested in training or development so who can he rely on for direction? Denis McLaughlin invites you to join Brian on his leadership journey as an unexpected mentor guides him on the paths of successful leaders from the past.
