Love itBy kstarsBio and works of this man who paints landscapes so ethereal, and with darks -- and accented by letting lots of light in the paintings! Love it! New books like this are very expensive. This is a hard cover that I got used, for a tiny fraction of what the new one goes for. Not bad condition, either; looks a bit read, but clearly, I would put it on my coffee table!0 of 0 people found the following review helpful. What places he creates for us! I also relate personally to Mr. Coleman's art career, and we are the same age. Special thanks to the nice folks who sold the book to me. They even gift wrapped it!--Steven Cost,Artist and illustrator
