**Steven E. Diaz : The Little Black Book of Emergency Medicine (Jones and Bartlett's Little Black Book)** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Little Black Book of Emergency Medicine (Jones and Bartlett's Little Black Book):

0 of 0 people found the following review helpful. Three Stars By HI't's ok. 1 of 3 people found the following review helpful. Straight to the Survival Bag By Wayne Every house should have this, seriously. Lots of good information if a hospital isn't an answer. Not everything you'd need in a medical book but as far as medicine it's the bomb.

Thoroughly revised and updated, the second edition of this pocket-sized handbook provides comprehensive, concise, evidence-based information on diagnosing and treating illness and injury in the emergency setting. The Little Black Book of Emergency Medicine is a convenient resource offering quick access to vital information and makes a great reference for solving pressing problems on the ward or in the clinic. Also available in PDA format!
