ARThis is a great little book for those with crochet experience. I wouldn't necessarily recommend it for beginners, even though most of the patterns are rated as easy. I've been knitting for over 30 years and most of these patterns require some detective work. The stitches themselves might be easy, but the patterns can often be difficult to decipher. I think they were short on space. Still a fun ride and great for your library. I've made almost everything in the book!0 of 0 people found the following review helpful. I wanted knitting, this is crochet; that was my fault, in not reading closely ;) Nothing wrong with this bookletBy foraminutUnfair to give it any rating; I returned it, as I did not notice that the patterns were for crochet dishcloths, and I was looking for knitting patterns.0 of 0 people found the following review helpful.
