Samuel Jacob Dyer : The Medical Science Liaison Career Guide: How to Break Into Your First Role before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Medical Science Liaison Career Guide: How to Break Into Your First Role:

5 of 5 people found the following review helpful. Invaluable resource for MSL Interviews By S4I ordered this book a

day before my phone interview for an MSL position. I was worried if the book would be able to help me in such a short time, but it was a nice quick read and an invaluable resource. Once you start, its hard to put it down. I was very impressed with accuracy of the information presented, especially the phone screen / interview chapters. Majority of the questions I was asked during my interview were almost word for word from this book. So I was very happy that I had read it ahead of time and prepared the answers for the questions. I highly recommend this excellent book to anyone who is aspiring to be an MSL or even if you are already an MSL. Its good to review some of these things as we talk to our KOLs. Thank you Dr. Dyer for your guidance.0 of 0 people found the following review helpful. In a nutshell: all you need to know As ...By Georg B.In a nutshell: all you need to knowAs I am approaching graduation, the MSL role caught my attention. Dr. Dyers guide provided me with a clear picture of what to expect in the hiring process alongside a clear definition and understanding of the role. The book is written concisely, has a clear structure and is free of any redundancy. You can see how his enormous expertise in the MSL field is condensed in this book, both in terms of content and writing style. After all, precise communication skills are crucial for this role.In regards to those negative reviews, a lack of specific examples is not something I see as an issue. On the contrary, considering the vast diversity of the field it would simply be too much, too overwhelming and let alone not feasible for a book of that format. As aforementioned, one of the books strengths is being concise in delivering the relevant messages. The book wont do the work for you. Hard work is always warranted. It will however, help you to direct your hard work in the right direction.0 of 0 people found the following review helpful. Great book and very helpful! I highly recommend itBy CustomerAre you looking for a cohesive and easy to follow through guidance how to become a successful MSL? if the answer is YES, than you got it!I purchased Dr.Dyer's book about a month ago when I decided that the MSL career would be an excellent professional pathway for me. What I really like in this book is the layout organized in a simple and logical way: each chapter describes the most crucial steps for the new MSL candidates. Excellent tips on job search, networking as well as CV examples are incredibly helpful.What needs to emphasized is also that Dr.Dyer explicitly points out the value of networking and communication and both are mutually important for a fresh MSL candidate.I highly recommend this book not only for beginners but also for many professionals looking for a career transition. It is always helpful to refresh job searching tips, update your resume and improve your communications skills.Do not hesitate to reach out to Dr.Dyer's advises - you will not regret it!

THE MEDICAL SCIENCE LIAISON CAREER GUIDE: How to Break Into Your First Role is the ONLY Guide that teaches you what you need to do to effectively break into the highly competitive Medical Science Liaison career. This is the first published book on how to break into the MSL role and it provides a Step-by-Step guide to successfully land your first role. What makes this book unique is that it is the first published book on how to break into the Medical Science Liaison role and was written by someone who has actually been an MSL, hired MSLs, interviewed MSL, reviewed MSL CVs, and Managed MSL Teams. As a hiring manager, Dr. Samuel Dyer has seen firsthand what makes a candidate successful, and what does not. As a result of his direct experience, he developed specific techniques and effective strategies that work and are reveled in the book!

From the Inside FlapI have always been interested in the field of medicine. However, I knew I did not want to become a doctor and practice medicine, yet I always imagined having a career that was highly respected and would allow me to be involved with the latest in medical advances. I also wanted a career that was dynamic, global in nature, would allow me to travel, would provide financial rewards, and was in high demand. In 2000, I began my career within the pharmaceutical industry, and I found exactly what I was looking for in the Medical Science Liaison (MSL) role.From the Back CoverEven for highly qualified candidates, becoming a Medical Science Liaison is a challenging endeavor. It's nearly impossible to achieve on your own without the proper preparation and guidance. The Medical Science Liaison Career Guide: How to Break into Your First Role will show you, step by step, how to search for, apply, and interview for your first MSL role. The book reveals strategies for standing apart from the competition, what hiring managers look for when considering candidates, and what gets the right candidates hired. Dr. Samuel Jacob Dyer shares his years of experience as a hiring manager at some of the world's top pharmaceutical companies and as chairman of the board for the MSL Society. In three easy-to-read sections, he discusses the Medical Science Liaison role, presents your MSL job search strategy, and reveals the inner workings of the MSL hiring process. His proven techniques and insights will increase your chances of starting your career as a highly paid Medical Science Liaison.About the AuthorDr. Samuel Dyer is the chairman of the board of the Medical Science Liaison Society and has over 15 years of international MSL experience. During his career, he has managed MSL teams and operations in over sixty countries across the United States, Canada, Europe, Africa, the Middle East, Australia, and New Zealand. He has facilitated the successful launch of pharmaceutical and medical device products for both Fortune 500 pharmaceutical companies and small biotechs. Dr. Dyer has coached, interviewed, and reviewed the CVs of countless MSL candidates. His insights and guidance have resulted in numerous candidates successfully breaking into their first MSL role. Dr. Dyer has written extensively on the Medical Science Liaison role, including numerous published articles, benchmark studies, and reports. He has also been a speaker at several global conferences presenting various

MSL topics, including creating teams, management, global trends, and the metrics used to measure performance. Dr. Dyer has also been sought out as a consultant for a number of pharmaceutical and management consulting companies on MSL projects. Dr. Dyer has a Ph.D. in Health Sciences and did his medical training in Chicago. He has a Masters Degree in Tropical Biology (where he studied in the) and has a B.S. in Biology. Dr. Dyer also completed a certificate program for Executive Leadership and Strategy in Pharmaceuticals and Biotechnology at the Harvard Business School.
