Very good and handy little dictionary. I look up a lot of old or unusual words and have found just about everything in this book. I also like the little boxes on almost every page explaining differences in usage between similar sounding words. And they also contain interesting information of the origin of some words. Definitions are succinct and to the point. It is also the right size to thumb through quickly and find what you're looking for.

Exactly what I was looking for, everyone should have a dictionary handy. Especially, if you write or type anything regularly.

Know the word but can't quite get it from your mind to the page? Can't remember whether it is spelled with an "ie" or a "y"? How about that word that ends with "el", or is that "le"? Are you pretty sure of a word's meaning but you are not 100 % sure? Then this is the book for you.
