From Brand: Avi Pub. Co : The New Harvard Dictionary of Music (Harvard University Press Reference Library) before purchasing it in order to gauge whether or not it would be worth my time, and all praised The New Harvard Dictionary of Music (Harvard University Press Reference Library):

1 of 1 people found the following review helpful. New Harvard Dictionary of Music By Michael S. Jackson If you're a serious musician you need this book! All terms defined in one place. They are so thorough they even define "dictionary." Contains brief histories of various genres of music. Outstanding reference book for musicians. 2 of 2 people found the following review helpful. Useful. By Shekina Gourley Great book, I used it to write several of my

Music History papers. Extremely helpful, easy to reference, good index. 0 of 0 people found the following review helpful. Five Stars
By RonEasy to use and contains what I was looking to find.

THIS EDITION HAS BEEN REPLACED BY A NEWER 2003 EDITION This classic reference work is simply the best one-volume music dictionary available today. Its nearly 6,000 entries, written by more than 70 top musicologists, are consistently lucid and based on recent scholarship. The New Harvard Dictionary of Music contains among its riches superb articles on music of the 20th century, including jazz, rock, and mixed media as well as twelve-tone, serial, and aleatory music; comprehensive articles on the music of Africa, Asia, Latin America, and the Near East; entries on all the styles and forms in Western art music; and descriptions of instruments enriched by historical background. Short entries for quick reference--definitions and identifications--alternate with encyclopedia-length articles written by experts in each field. More than 220 drawings and 250 musical examples enhance the text. Combining authoritative scholarship with concise, lively prose, The New Harvard Dictionary of Music is the essential guide for musicians, students, and everyone who listens to music.

From Library Journal Surely this indispensable tool needs no introduction; the first two editions, edited by William Apel, have served the music world only too well. The present volume, prepared by 70 noted scholars under Randel's capable editorship, contains mostly new entries; the scope has been greatly expanded to include better coverage of recent music. A work for musicians, students, musicologists, and music lovers that belongs in most collections. J. Richard Belanger, United States International Univ., San Diego, Cal. Copyright 1987 Reed Business Information, Inc. Surely this indispensable tool needs no introduction; the first two editions, edited by William Apel, have served the music world only too well. The present volume, prepared by 70 noted scholars under Randel's capable editorship, contains mostly new entries; the scope has been greatly expanded to include better coverage of recent music. A work for musicians, students, musicologists, and music lovers that belongs in most collections. -- J. Richard Belanger "Library Journal" The New Harvard Dictionary of Music is easily the most useful of all musical dictionaries because of its accuracy, concision, and ease of reference. --Charles Rosen, author of The Romantic Generation
