I love them because of their size and the fact I can sit them on my desk without the weight a full set of books would generate. I suggest you purchase if you want information at hand and of light weight.2 of 2 people found the following review helpful. I ordered it for my wife who is a MSN care/case manager on a rehabilitation unit. I think she will find the many books in the set helpful in assisting her to save time while doing a great job in a more informed manner.
