Pretty good book.By texasyarngirlThis book was recommended to me by a former co-worker / boss ... generally, I liked it. It's certainly a bit different than what I am used to in career development / job search books. I like Molly's frank voice, if you're not into a "get off our butt and do something" -- then this book may not be for you.Things I liked in particular, but which were not necessarily "revolutionary" were her points that (a) if you find yourself unemployed, try to use it as an opportunity to do what you've always wanted to do, (b) meeting people and networking will get you a new job, sitting at home polishing a resume to the nth degree, won't.Good, easy and fast read. Recommended if you feel you need a kick in the pants regarding your next career move.2 of 2 people found the following review helpful. I put it to work before I finished reading it !!! Go on Break the Rules !!!By Mark MHoly cow !!! I got the book Sunday, read part of the book and more on Monday morning - Using what I read, I worked up a set of questions for a second phone interview for a Sr VP role today. And don't you know it was the best interview I've ever had - I controlled the flow - I asked 95% of the questions, I got the invitation to come in to meet the CEO and CFO.When "you" are the product - listen to Molly...its putting common sense to work. Its a new mindset. Molly's insight helps you leverage what you already have and know - find out what the role is, ask the questions to determine the fit, lead the conversation - its all in your power, but it takes the mindset Molly drives home !The interviewer thought I did a great job. I thought so too, but that's amazing since they did most of the talking! Its a slap the forehead moment!!! I put the phone down when it was over and laughed. It was like "turning my instincts back on" ! I got the next interview.I highly recommend Molly's approach and "*The New Job Search: Break All The Rules. Get Connected. And Get Hired Faster For The Money You're Worth*". I'm going to reread it before my next interview prep !

Most job search "experts" have never endured the pain of an extended job search. For two years and three days Molly Wendell, a former Vice President of marketing, lived it. It wasn't until she fired the "job boards" and quit following the rules that she figured out what really works. In 90 days, she secured 60 meetings and received 30 job offers. With a Black Belt in job search and the battle scars to prove it, Molly's strategies for landing your next great position are the most innovative and important you will encounter today.
