Richard Bullock : The Norton Field Guide to Writing before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Norton Field Guide to Writing:

0 of 0 people found the following review helpful. A nice guide to have on hand By Taylor D It was an okay book. A nice guide to have on hand, but I didn't find myself picking it up as my first reference while writing papers. 0 of 0 people found the following review helpful. Four Stars By K. Hu Great guide for HS students. 0 of 0 people found the following review helpful. Great reference book to keep after using for class. By Danny I've kept this as a reference book to structure my own writing after I was done with my class. Probably one of the only text books you wouldn't want to sell back.

The rhetoric that tells students what they need to know and resists the temptation to tell them everything there is to know. Now available in two versions, with and without an anthology of 50 readings.

I would highly recommend the book to anyone new to the freshman composition classroom. - DaRelle Rollins, Hampton University
The amount of detail is perfect. Students will find this book easy to understand and will appreciate not being overloaded with information. - Mitzi Walker Jones, University of Arkansas, Fort Smith
The Norton Field Guide is one of the best rhetorics I've seen at achieving essential coverage and brevity. It gives guidance to new instructors and flexibility to others. The readings are great. - Nedra Reynolds, University of Rhode Island
The level of detail is perfect. It leaves room for the instructor to move about to add material, to pitch the content in his or her particular way. Writers, even student writers, want advice, not directives. In years of reviewing, I have seen few books that offer something new and valuable and interesting. The Norton Field Guide is one. The innovation it offers is long overdue. - Paul Heilker, Virginia Polytechnic Institute and State University
The beauty of the Field Guide is that it can conform to any style of teaching and appeal to any pedagogical approach. - Tony Procell, El Paso Community College
About the Author
Richard Bullock (Ph.D., University of Virginia) is a professor of English at Wright State University, where he directs the writing programs and serves as assistant chair of the English department. His scholarship and teaching focus on the teaching of writing in college and secondary school. *The Politics of Writing Instruction: Postsecondary*, which he coedited with John Trimbur and Charles I. Schuster, won the 1993 Conference on College Composition and Communication Book Award.
Maureen Daly Goggin (Ph.D., Carnegie Mellon University) is the Associate Chair of the English Department at Arizona State University, where she has also directed several of the writing programs and the Ph.D. program in Rhetoric, Composition, and Linguistics. She recently received the ASU Alumni Association Faculty Teaching Award and is the author of *Authoring a Discipline: Scholarly Journals and the Post-World War II Emergence of Rhetoric and Composition* (2000).
