0 of 0 people found the following review helpful. GoodBy Sandra VeraAs described1 of 1 people found the following review helpful. this book had excellent discussions on how to start to looking for Error ...By KentAlthough somewhat dated, this book had excellent discussions on how to start to looking for Error Coins. Additionally, there where numerous web sites listed for further information as well as the professional societies that have emerged from Error Coins.0 of 0 people found the following review helpful. Five StarsBy Customerthe book is in good condition and a

good value.

Collecting mint errors is one of the fastest-growing, highest-profit specialties in the booming field of coin collecting. Written by a leading authority on the minting process, this price guide offers a complete record of existing coin errors. The Official Price Guide to Mint Errors uncovers vital information for the novice collector as well as the seasoned expert. Fully updated with all the newest coins including state quarters and newly-discovered errors. Expert advice on buying, selling, and collecting mint errors of all types. Detailed descriptions and over 100 photographs for easy identification.

About the Author Alan Herbert is a leading authority and researcher on the minting process. A former editor of Coins magazine, he writes columns, articles, and news stories in various numismatic publications and is the author of several books on mint errors.
