Oxford University Press : The Oxford American Desk Dictionary and Thesaurus before purchasing it in order to gage whether or not it would be worth my time, and all praised The Oxford American Desk Dictionary and Thesaurus:

5 of 7 people found the following review helpful. Bought one for all of my co workers By Jeffrey S. Alek Bought about

10 of them for my co workers, last Xmas. Got tired of my copy always on "reference" somewhere in the hall, and me having to hunt it down. Excellent business tool, always seems to give the perfect reference when you are crafting that all important email to the world. Noticed after the first couple of weeks that they all had creases in them and were at ready reach to everyone's computer. 0 of 0 people found the following review helpful. dictionary and thesaurus combined By Robert J. Jose Great space saver of having two reference books a dictionary and thesaurus combined into one book. 8 of 10 people found the following review helpful. Priceless! By Travis R. Wilson I am an extremely meticulous reader. I like to understand every single new word I see. Most readers are pretty lazy. They just assume the meanings of unrecognizable words in their context, and that's okay too, but I sometimes find this book to be indispensable when it comes to uh ... "nit-pickery." Hmm, I don't even think that's a real word. Looks like I need to pull out the old dictionary again. Heh, heh! Anyway, this book has other uses besides understanding what you read. It's a thesaurus as well as a dictionary, and if you ever want to just strut around being a verbose and pretentious jackass, this book is a great treasure trove of strange, obscure, and exotic synonyms for the most common and overly-used words. Trust me, I know what I'm talking about. I've gotten many a brainy girl in the sack thanks to this book (a lie). It also makes a nice paper-weight or doorstop, and when you've finally worn out your first copy, you can always buy a new one and use the old one for toilet paper. Ah, the simple things! See how much class I have since I got my copy of the OADDAT? Pat me on the back, damn you!
