**Arthur S. Reber, Emily Reber, Rhianon Allen : The Penguin Dictionary of Psychology: Fourth Edition** before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Penguin Dictionary of Psychology: Fourth Edition:

1 of 3 people found the following review helpful. good resource By cindy leigh langford found this to be of great help in my studies and feel it will be a great companion to have close at hand 2 of 5 people found the following review helpful. One thing By Paige I love this book and it arrived early and looked brand new. One thing I was surprised by is

that the book is thicker than I originally thought. I probably should have known though. 0 of 4 people found the following review helpful. One Star  
By Kaye Dreier  
Not what was looking for I would send it back but it didn't have any paperwork in the package

The Penguin Dictionary of Psychology has become a byword for demystifying the language of this complex subject. Now fully updated for its fourth edition, this wide-ranging and accessible dictionary is invaluable for both students and professionals, and an indispensable guide to all areas of psychology and psychiatry. -Covers related fields such as neuroscience and social psychology -Describes how terms are employed, their wider connotations and past usage - Looks in detail at such key concepts as addiction and instinct

"It deserves to become a classic of its kind." -"The Times Educational Supplement" (UK)  
About the Author  
Rhianon Allen was born in Dinbych, in the north of Wales in 1950. She completed her BA at the University of British Columbia and her PhD at the Graduate Center of the City University of New York. She is a Professor Emerita at Long Island University in New York, where she began work in 1985 after several years at the New York State Psychiatric Institute and the faculty of the College of Physicians and Surgeons, Columbia University. She's also held visiting scholar appointments at the University of Innsbruck, Austria, and the University of North Wales in Bangor, UK. She is currently a visiting scholar at the University of British Columbia, Canada. Although best known for her work on implicit learning, her research interests also include cultural factors in the development of values and attitudes.
