Nigel Dalziel : The Penguin Historical Atlas of the British Empire before purchasing it in order to gage whether or not it would be worth my time, and all praised The Penguin Historical Atlas of the British Empire:

2 of 2 people found the following review helpful. Excellent and brief summary of success By Jari Paakkarinen This short atlas makes an excellent reading on travel for example. All the essentials are there, plus a very interesting analysis on the British Empire's submarine cables since 1860's. Combined with the seven fleets located in different corners of the Empire this creates a fascinating parallel to today's USA. 0 of 0 people found the following review helpful. Great book By susan sears Great book 6 of 8 people found the following review helpful. MAPS GOOD, WRITING NOT SO MUCH By Customer The maps are very helpful. The writing is the just the self-loathing that the

British Ministry of Truth seems to require about the Bad Old Empire: full of distortion and omission. Buy it for the maps; ignore the rest.

The Penguin Historical Atlas of the British Empire traces the emergence of the world's greatest empire from its earliest beginnings in the British Isles, through its ascendancy in Victorian times, to its ultimate collapse in the mid-20th century. It examines the impact of British dominance in America, India and Africa, and the enormous changes brought by Britain's settlement of Australasia. Coverage of major events - the colonization of Ireland, the American Revolution, the South African wars - is complemented by discussion of themes such as Imperial exploitation and trade, hunting for plants and animals, the Imperial exhibitions and the importance of British naval power. Also assessed are the impact of the Empire on different areas of the world and the legacy it has bestowed. Richly illustrated with photographs and full-colour maps, this is an illuminating and multi-faceted one-volume introduction to the rise and fall of the British Empire.

About the Author Dr Nigel Dalziel is the curator of the Lancaster Maritime Museum and the editor of numerous collections of Victorian photographs.
