**J.M. Cohen : The Penguin Thesaurus of Quotations (Reference)** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Penguin Thesaurus of Quotations (Reference):

In this volume M.J. Cohen has gathered over 12,000 quotations, arranging them under 800 themes, from age to youth, advice to worry, and martyrs to millionaires. The quotations are listed alphabetically by author under each theme. Thus Dolly Parton rubs shoulders with Marcel Proust on the theme of "body parts", Aesop with Babe-Powell on "anticipation", and Groucho Marx with Moliere on "doctors and nurses". The result is not only a browser's paradise but also a reference tool for those who want to make a speech, prepare a sermon, write a letter or solve a crossword. For entertainment, for inspiration, for settling arguments, or for browsing, this book should be of interest to every home and office.
